First-class impressions that last and last.
First and foremost, Glen-Gery is the right choice for Personalized Brick projects because we know what it takes to make the brick that we engrave. As brick craftsmen, we recognize the specific variety of brick that best suits your intentions. We’ll impart that knowledge and experience to any project—charity walkways, memorial arches, a Wall of Fame, and a host of other appropriate, tasteful, attractive presentations. We can even help you create just the right graphics and text to inscribe on your brick, the words and images that make it forever yours.

Why Glen-Gery?

Some people, groups, and events are so special they just deserve to be honored. A graduating class; the perfect fundraiser; a housewarming gift; an anniversary; a holiday gift; a loved one who’s no longer with us. The reasons for commemoration are as varied and rich as the experiences of our lives. And one especially memorable way to mark any milestone or achievement is with Personalized Brick.

Glen-Gery Brick, America’s premier brickmaker for nearly 125 years, also has a quarter-century of experience engraving brick, stone, glass and like products with text and images to uniquely preserve the memories that matter most. It’s a striking, permanent way to mark virtually anything. Because people respond so strongly to it, Personalized Brick is also a terrific, effective fundraiser.

OUR PRODUCTS ARE 100% MADE IN THE USA!
Practical, permanent and professional.

Consider its warm qualities and unforgettable presentation for your next special event. This custom-crafted, engraved brick adds a special, highly personal touch in fundraising and beyond. Use it to individualize patios, walls, walkways, even desktops.

There is no limit to the possibilities!

Our engraving shop doesn’t stop with brick, we also engrave other materials including:

Concrete Pavers
Glass Block
Tile
Flagstone
Granite
Marble
Sandstone
Metal
Aluminum
Personalized Brick from Glen-Gery can pay for itself in fundraising success while yielding perpetual recognition for your donors. It’s an exciting, original approach to a wide range of community fundraising projects.

Personalized engraved brick from Glen-Gery offers an outstanding way for your organization to raise money. For non-profits, schools, churches and many other groups, Personalized Brick is an effective, high-visibility alternative to worn-out, commonplace fundraising methods.

The following guidelines* can help make your efforts count. For more information, contact Glen-Gery’s Personalized Brick team.

DEVELOP YOUR FUNDRAISING PLAN

Choose your fundraising approaches—door-to-door, donations, special events, raffles, etc.

Set realistic goals based on actual cost vs. profits. What part of your goal is attainable using Personalized Brick?

Recruit volunteers, assigning them to teams responsible for manageable tasks.

SET TIMETABLES

Coordinate training session/meeting schedules.

Set a firm process timetable, including production time for your Personalized Brick.

IDENTIFY PROSPECTIVE DONORS

Build relationships with prospects who can afford to contribute for years to come.

Local businesses will donate funds to gain exposure and good public relations in the community. Remember, your donor prospect group must be large enough to meet your cash goals.
TRAIN YOUR VOLUNTEERS

Offer guidance for your volunteers on the strategic purposes of your fundraising project.

Create specific shared goals for their teams, including team spirit and respect for leadership.

Volunteers should be outgoing and friendly.

TRAINING INCLUDES PROPER RECOGNITION

Motivate volunteers by involving them in decisions. Recognize their contributions often to build loyalty and keep new leadership excited.

Say “thank you” to instill a sense of their value.

WHY PERSONALIZED BRICK WORKS FOR FUNDRAISING PROJECTS

It’s a unique idea not worn out by too-frequent use in the past, so it gets more donor attention.

Brick is very durable. A name will be immortalized and the product will last forever.

The brick is personalized, which inspires an individual attachment to the project.
