

case study: a closer look at Upton Manor

Aztec White Facebrick

Upton Manor • Guntersville, AL

The multi-level, 10,000 square-foot residential single-family home, known as Upton Manor, is located in the Guntersville area on the lake. This beautiful lake city is located on the southernmost point of the Tennessee River and surrounded by 69,000 acres of water. It offers excellent fishing, swimming, boating and all water sports.

This waterfront home stands out in the lake community with its own boat house with screened in seating area, fire pit, pool and a 2-story screened in porch. This waterfront home is perfect an active family that does a lot of entertaining, including hosting overnight guests.

The mason contractor's attention to detail and craft is apparent in all aspects of the project, from the flat arches to the soldier course work. These common shapes tie into the "Manor" feel.

The homeowner's goal was to convey a true feeling of superiority, uniqueness and grand details for his custom home and took every step along the way to achieve this, including uploading his building plans to the [Glen-Gery virtual design tool](#). This tool by Glen-Gery allows users to upload design plans and apply different brick, stone and mortar to visualize completed projects with the click of a button.
