

GENUINE CLAY BRICK PAVERS

NATURALLY DURABLE. NATURALLY BEAUTIFUL.

Glen-Gery

# GENUINE CLAY BRICK PAVERS

## NATURALLY DURABLE. NATURALLY BEAUTIFUL.

### **Genuine clay brick pavers. An easy choice.**

Architects, builders, homeowners, and contractors prefer clay pavers because they combine lasting performance with timeless design.

Made from natural clay and fired at high temperatures, they maintain their color, strength, and character for decades without fading or wearing like concrete.

Clay pavers offer rich, through-body color and proven durability, resisting freeze-thaw cycles, stains, and heavy use.

They're easy to repair, support proper drainage, and age beautifully—making them a reliable, high-quality choice for outdoor spaces built to last.

# Why Choose Clay Brick Pavers?

## Unmatched durability. Long-term value.

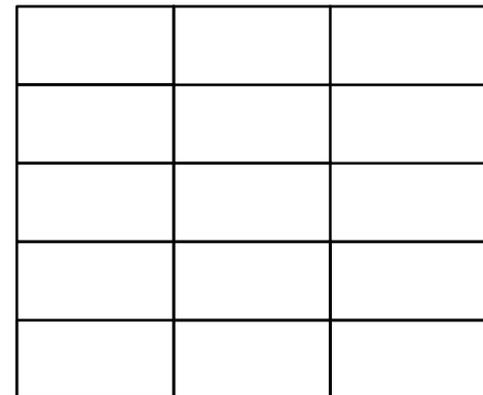

Clay brick pavers are a proven hardscape solution trusted by homeowners and contractors for generations. Made from clay and fired, they deliver consistent performance, reliable installation, and long-term durability that minimizes callbacks and maximizes customer satisfaction.

## Patterns

Paver patterns, ranging from classic herringbone to intricate basket weave designs, add visual interest and character to outdoor spaces, enhancing both aesthetics and functionality.

# Product Overview

Genuine clay brick pavers offer unmatched durability, timeless charm, and versatile design options for outdoor spaces. Crafted from natural clay, these pavers are kiln-fired to perfection, ensuring enduring strength against weathering and heavy foot traffic. Their inherent thermal properties provide comfort underfoot and enhance outdoor aesthetics, while their low maintenance requirements make them a practical and sustainable choice for long-lasting beauty. Trust in genuine clay brick pavers to elevate any outdoor environment with elegance and sophistication.

## Details

With a rich palette of colors, genuine clay brick pavers allow for endless customization, making them ideal for walkways, patios, driveways and landscaping projects.

## **Color That Lasts a Lifetime.**

The color is inherent to the natural clay itself rather than applied as a surface pigment, so it will not fade, peel, or wear away over time. This ensures a rich, color that remains consistent year after year. In contrast, concrete pavers rely on surface coloring, which can fade or discolor with UV exposure and regular wear.

# Cityscape Series

All of these products meet or exceed the requirements set forth in ASTM C902 for Class SX Type I pedestrian and light traffic paving brick. And meet or exceed the requirements set forth in ASTM C1272 for Type R heavy vehicular paving brick. Refer to ASTM C1272 for limitations of Type R paving brick.

## Low Maintenance. Easy Repairs.

Individual pavers can be easily removed and reinstalled as needed, allowing for repairs without large-scale demolition. Routine cleaning is all that's required to keep the surface looking new. In contrast, poured concrete typically requires full replacement when cracks or damage occur.

# Urbanscape Series

All of these products meet or exceed the requirements set forth in ASTM C902 for Class SX Type I pedestrian and light traffic paving brick. Allegheny Grey, Brownstone Boulevard, Pittsburgh Pearl and Riverfront Pewter meet or exceed the requirements set forth in ASTM C1272 for Type R heavy vehicular paving brick. Refer to ASTM C1272 for limitations of Type R paving brick.

## **Environmentally Responsible Choice**

Made from natural, abundant materials, clay offers a long lifespan that reduces waste and minimizes replacement cycles. Permeable installation options help support effective stormwater management, and the material is often reusable and recyclable. By comparison, shorter-lived materials generate more waste and have a higher overall lifecycle impact.

# KF Series

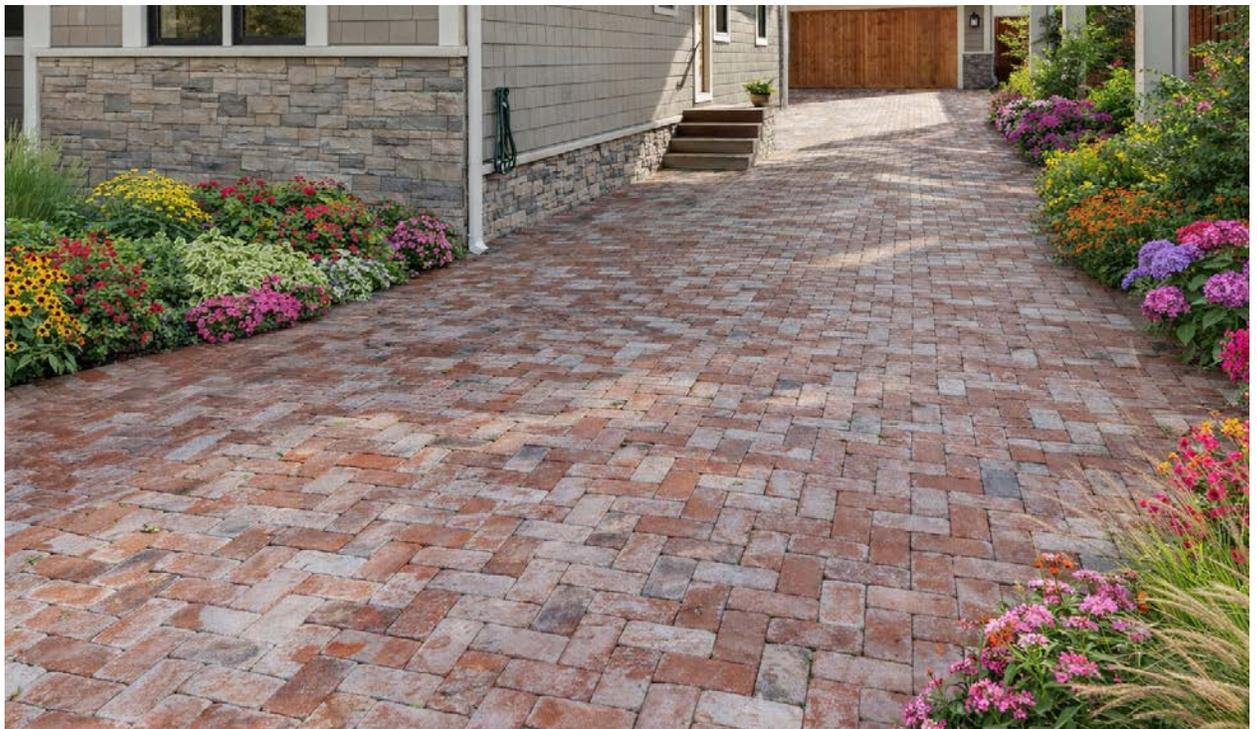

All of these products meet or exceed the requirements set forth in ASTM C902 for Class SX Type I pedestrian and light traffic paving brick.
